GOAL Framework Consultancy for Country Programme WASH Evaluations and Assessment against Global WASH Aims and Priorities	4G consite together with Saaf Consult B.V. cooperate on evaluations of WASH projects/programmes in Ethiopia, Haiti, Honduras, India, Kenya, Liberia, Malawi, Niger, Philippines, Sierra Leone, South Sudan, Sudan, Syria, Uganda and Zimbabwe. Evaluations of WASH programmes are conducted in line with the principles set out by the Development Assistance Committee of the OECD with reference to programme relevance, efficiency, effectiveness, impact and sustainability and in accordance with the specific objective set in the TOR for each evaluation. Assess the country programmes against the strategic goal and objective for GOAL globally and against GOAL's 10 Key WASH Principles.	8/2015	2017	GOAL Ireland	Asia, Africa, America
Monitoring and evaluation of 2 Projects: Water Supply for Herdsmen in Zavchan Region, Mongolia and Development of water supply system in Murun, Chovsgul province, Mongolia	Monitoring and evaluation of CZDC projects in Mongolia. Water Supply for Herdsmen in Zavchan Region - Geophysical/hydrogeological investigation of 20 sites, drilling and construction works, technological equipment, capacity building; Development of water supply system in Murun City, Chovsgul province - Geophysical/hydrogeological investigation of potential groundwater sources for Murun City, technological upgrade of WSS, testing and measurement equipment, capacity building.	8/2015	9/2015	Czech Development Agency	Mongolia, Czech Republic
Strategy of drinking water supply and waste water management of region BelaCrkva, Phase II.	Strategy of drinking water supply and waste water management of region BelaCrkva, Phase II. Tendering documentation of project in the sector water supply and sanitation. Project design, detailed technical design and tender documentation of water supply network reconstruction in Bela Crkva region, revitalization of wells in source collecting area in Vrsac. consultancy services for CZDA.	1/2015	3/2015	Czech Development Agency	Serbia, Czech Republic
Disposing of Old Environmental burdens, Know-how transfer. Phase II.	Monitoring and evaluation of the Project, Disposing of Old Environmental burdens, Know-how transfer. Phase I. Project (Phase II) design and tender documentation. Geological/hydrogeological investigation, pilot remediation of different environmental burdens. Identification and handling with hazardous waste. Health and safety regulations. Application of methodology for disposal of old environmental burdens. Training/capacity building of institutions focused on environmental protection.	11/2014	6/2015	Czech Development Agency	Mongolia, Czech Republic
The Complex Evaluation of the Development cooperation of the Czech Republic in the sector water supply and sanitation in Ethiopia, based on projects: Capacity Development in the Field of Engineering Geology and Hydrogeology in Ethiopia; Sustainable Management of Water Schemes in Alaba Special Woreda; Establishment of a Sustainable System of Drinking Water Supply in Small Towns of Sidama Zone, SNNPR, Ethiopia I; Establishment of a Sustainable System of Drinking Water Supply in Small Towns of Sidama Zone, SNNPR, Ethiopia, II /Geophysical Investigation in Sidama Zone; Resources Survey of Thermal and Mineral Waters in Southern Ethiopia.	Evaluation of relevance, effectiveness, efficiency, sustainability, economic and environmental impacts. Biodiversity aspects. Assessment of groundwater resource management. Feasibility of technical solutions for drinking water supply systems. Hydrogeology and Engineering Geology.	4/2014	11/2014	Ministry of Foreign Affairs, Czech Republic	Ethiopia, Czech Republic

National Water Management System in the Palestinian Autonomous Territories – MYWAS, 2011-2013	Evaluation of a project under the Czech Republic's Development cooperation in the water and sanitation sector in the Palestinian autonomous territories. Focused on assessment of environmental and hydrogeological/hydrological impacts	4/2014	9/2014	Ministry of Foreign Affairs	Czech Republic
Strategy of drinking water supply and waste water management of region BelaCrkva	Tendering documentation in the sector water supply and sanitation. Hydrogeological and waste water assessment, project design, detailed technical design and tender documentation	1/2014	9/2014	Czech Development Agency	Serbia, Czech Republic
Disposing obsolete pesticides from several locations in Moldova (Phase II)	Monitoring and Evaluation of disposing obsolete pesticides from several locations in Moldova. Project supervision, consultancy services for CZDA	11/2013	2015	Czech Development Agency	Moldova, Czech Republic
Disposing old environmental burdens – airport Marculesti in Moldova	Monitoring and Evaluation of disposing old environmental burdens – airport Marculesti in Moldova. Project supervision, consultancy services for CZDA	11/2013	2015	Czech Development Agency	Moldova, Czech Republic
Water Supply for Herdsmen in Zavchan Region, Mongolia	Monitoring and Evaluation of Water Supply for Herdsmen in Zavchan Region, Mongolia. WASH Project supervision, consultancy services for CZDA	11/2013	12/2013	Czech Development Agency	Mongolia, Czech Republic
Evaluation of two projects in the sectors: Soil Erosion, Forestry, Plant Production; WASH: Anti-erosion Measures around Lake Awassa, Ethiopia, October 2008- November 2010 and Sustainable Management of Soil, Forest and Water Resources as a Pilot Model for Community Development in Southern Ethiopia, September 2010 – December 2012. Especially second project implemented by the MENDEL University in Awassa Zuryia and Alaba Districts integrated NRM with WASH component implemented in Alaba Special Woreda (improved access to drinking water and sanitation, awareness raising, capacity building and training at the WASHCOs, Woreda and Regional levels). The principal purpose of this evaluation was to obtain information that will guide decision-making on upcoming interventions of Czech development cooperation in Ethiopia in the sectors Soil and Water Conservation and WASH. Both projects were funded by CZ DC.	Evaluation of relevance, effectiveness, efficiency, sustainability, economic and environmental impacts. Biodiversity aspects. Feasibility of technical solutions for drinking water supply systems	4/2013	7/2013	Ministry of Foreign Affairs, Czech Republic	Ethiopia, Czech Republic
Water Supply for Herdsmen in Zavchan Region, Mongolia	Tendering documentation. Hydrogeological and environmental assessment, project design, detailed technical design and tender documentation	10/2012	12/2012	Czech Development Agency	Mongolia, Czech Republic

CONTRACT	DESCRIPTION	DATE		CLIENT	LOCATION
Disposing of Old Environmental burdens, Know-how transfer	Cooperation on project design and tender documentation. Identification of potential past environmental liabilities. Assessment of existing practices and technologies. Elaborating detailed approach and methodology for disposal of old environmental burdens. Relevant legislation and international standards. Criteria for selecting localities to pilot and to fine-tune the methodology for adopting in Mongolia. Defining institutions for training and capacity building.	10/2012	12/2012	Czech Development Agency	Mongolia, Czech Republic
Evaluation of two projects in the sector: General Environment protection - Flood Prevention/ Control: Monitoring and Flood Protection in the Catchment of the river Reut (completed in 2008) and Flood Warning System in the Catchment of the River Prut, Moldova (2010-2012)	Evaluation of relevance, effectiveness, efficiency, sustainability and long-term impacts. Viability of technical solution. Consideration of climatic changes	9/2012	12/2012	Ministry of Foreign Affairs, Czech Republic	Moldova, Czech Republic
Disposing old environmental burdens – airport Marculesti in Moldova	Assessment and identification of potential environmental liabilities, risks and hazard. Preparing tender documentation including LFA, budget and detailed technical design	8/2012	12/2012	Czech Development Agency	Moldova, Czech Republic
Disposing obsolete pesticides from several locations in Moldova (Phase II)	Identification and appraisal of warehouses with obsolete pesticides and of potential environmental liabilities. Assessment of conditions and risks. Prioritization of interventions. Designing project document and tender documentation. Preparing PIP, LFA and budget	8/2012	11/2012	Czech Development Agency	Moldova, Czech Republic
Evaluation of two completed projects in the social sector: Socio-economic Stabilization of Geographically and Socially Isolated Communities in Mongolia and Preparation and Introduction of Study Program Social Work. Both projects were implemented by Caritas CR	Assessment of environmental impacts (disposal of electronic equipment). Mitigation	5/2012	9/2012	Ministry of Foreign Affairs, Czech Republic	Czech Republic
Development of Small and Medium Sources of Energy and Related Distribution Networks in Selected Areas of Palestine 2006-2011(VZ 50017198).	Evaluation. Focused on assessment of environmental impacts including assessment of decrease in CO2 emissions (glass house effect) due to the project	5/2012	9/2012	Ministry of Foreign Affairs, Czech Republic	Czech Republic
Evaluation of 3 Projects of Czech Development Cooperation in Serbia in the Environmental Sector “Increasing the Capacity of Drinking Water Supply in the Region of Boričevac Town, “Site Investigation and Rehabilitation of Ada Huja Area” and “Introducing Environmentally Sound Disposal of Petroleum Substances and Hazardous Wastes”	Evaluation of relevance, effectiveness, efficiency, sustainability, economic and environmental impacts. Biodiversity aspects. Feasibility of technical solutions for disposal of petroleum substances and for drinking water supply production and distribution	8/2011	9/2011	UNDP BRC	Serbia, Czech Republic
Disposing obsolete pesticides from several locations in Moldova (Phase I)	Supervision and quality assurance of deliverables from the projects. Review and approval of proposed methodologies and steps for safe disposal of 200 tonnes of pesticides.	6/2011	2012	Czech Development Agency	Moldova, Czech Republic
Assessment of Development Cooperation of the Czech Republic in the Water Supply and Sanitation Sector in Southern Nations, Nationalities, and Peoples Region in Ethiopia.	Provided expert advice for the focus of CZDC in the WASH sector/Ethiopia. This included: Prioritizing areas on hydrological and hydrogeological consideration, assessing the feasibility of proposed technical solutions/approaches. Evaluation of relevance, effectiveness, efficiency, sustainability, economic and environmental impacts. Biodiversity aspects. Assessment of groundwater resource management. Feasibility of technical solutions for drinking water supply systems.	6/2011	9/2011	Czech Development Agency	sodomka@akse s.cz

CONTRACT	DESCRIPTION	DATE		CLIENT	LOCATION
Project design of disposing obsolete pesticides from several places in Moldova (I. phase)	Identification and appraisal of warehouses with obsolete pesticides and potential environmental liabilities. Assessment of conditions and risks. Prioritization of interventions. Designing project document and tender documentation. Preparing LFA, PIP and budget.	4/2011	6/2011	Czech Development Agency	Moldova, Czech Republic
Evaluation of two projects CZDA in Moldova in the Environmental Sector - Disposing old environmental burdens in industrial zone in Iargara, Landfill construction and Waste Water Management in Leova.	Evaluation of relevance, effectiveness, efficiency, sustainability, socio-economic and environmental impacts. Assessment and descriptions of remaining environmental liabilities. Recommendations for follow up mitigation measures	1/2011	3/2011	UNDP BRC	Moldova, Czech Republic
